GROWING DEEPLY IN FAITH: Five Years of God’s Creative Grace!

So that all may grow deeper in faith through joyful engagement with the Gospel in a Lutheran key, we envision that each and every ministry, program, process, initiative, and event of our synod—even business meetings!—will regularly and consistently include opportunities and formats for prayerful experiences of the means of grace.

During the next five program years, look for experiential and educational events, resources and initiatives that will highlight ways we can live more creatively and deeply into and out of the means of grace for our growth in faith for the mission we share.
