

Long Island Lutheran Middle & High School (LuHi) is an independent Christian school serving students in grades 6-12 from Nassau, Suffolk, and Queens counties in New York. Our academics, arts, athletics, and campus ministry work together to support the growth and development of each young man and woman to become all who God intends them to be. LuHi's core values of Christian Love, Excellence, Community, and Family undergird the daily work of each member of the LuHi community, as we work together to support students in becoming compassionate and educated leaders.

LuHi has an opening in the Science Department for the 2023-24 school year.

LuHi is a caring and rigorous environment that seeks to blend student development in academics, spiritual life, the arts, and athletics. The ideal candidate sees themselves as a part of a whole - a team working in partnership with students and families to support holistic growth and development during the middle and high school years. The ideal candidate is an educator who works collaboratively with other educators, seeks partnership, and works to see students as individuals, meeting them where they are in order to facilitate growth through rigorous academics coupled with appropriate supports. Responsibilities include curriculum development for courses focused on hands-on application (via laboratory experiences, etc.) of content and skills specific to the Science discipline, and daily lesson planning, (note that LuHi has an alternating block schedule, with classes meeting every other day for a longer block), differentiation of instruction based on specific needs of students, grading and feedback, participation in professional development, support of and participation in the school's advisory and Beyond Boundaries programs, and support of and participation in campus ministry as needed.

Responsibilities include:

- Teach 6 sections of HS Science, including Biology, AP Biology, and either Advanced Placement Environmental Science or a Science elective (note: a full load at LuHi is 6 sections)
- Collaborate and plan with other Science teachers and middle and high school educators, as well as school leaders
- Other duties as assigned by school leadership

Desired Qualifications:

- Bachelor's Degree (Master's preferred)
- Certification in Science Education: Biology ideal
- Experience teaching Advanced Placement Biology necessary

Applying for this Position:

Interested candidates should submit a cover letter and resume to our school leadership team via email at careers@luhi.org. Please indicate "HS Science Position" in the subject line. To learn more about our school, candidates should visit our website at www.luhi.org.
