

### "Belong, Believe and Become all that God Promises"

Vol. 65, No.10 June 2025

Hearing birds sing, especially the early dawn chorus, is often appreciated for its beauty and connection to nature. It is also a natural way to wake up and start the day with a positive, natural sound.

A few days ago, in my back yard, we found two baby birds dying. They were trying to draw air to breathe. They looked very fragile. I thought they would die very soon. I couldn't let that happen without doing something. We searched on the internet; we called several places to find out what we could do to save those beautiful baby birds.

After a long search we found a young man who came to the house and took the two baby birds. He cared for and fed both birds; in the end only one survived. Although it was sad that only one survived, for us it was a satisfaction that a bird was saved, and we contributed to the fact that every morning we would possibly hear this bird sing in our backyard.

The Bible states that God created birds on the fifth day of creation, highlighting their importance in God's plan. They are cared for by God as part of His creation. This is our God who cares for the birds and for each one of us.

# JUNE OUTREACH

The New Life Center is in need of our support. As tenants of our building, we see firsthand the large number of community members they serve. Because of cuts in federal funding, they are seeking varied avenues for new revenue and donations. Whatever you can do to support their efforts will be appreciated. Use your offering envelopes to add a donation under Missions. Pantry supply items can be donated in person on Mondays, Tuesdays, Thursdays and Fridays between 9-12pm.
